Helping You Write Academic Papers in R using Texevier

Jane Doe[a], John Smith[a,b], John Doe[a,b]

[a]*Some Institution, Cape Town, South Africa*

[b]*Some other Institution, Cape Town, South Africa*

Abstract

Abstract to be written here. The abstract should not be too long and should provide the reader with a good understanding what you are writing about. Academic papers are not like novels where you keep the reader in suspense. To be effective in getting others to read your paper, be as open and concise about your findings here as possible. Ideally, upon reading your abstract, the reader should feel he / she must read your paper in entirety.

Keywords: Multivariate GARCH, Kalman Filter, Copula

JEL classification L250, L100
